Compiling the React Native App

Reggie Dawson
DEVELOPER

@reggiewrites

Overview

Expo

Setting up Expo

Move project to Expo

Learning XDE

App icon and splash page

Build with Expo

Eject

Compile the App

Generate Package
Ready for release

Compile locally
Need SDK of the desired platform

Expo
Using Expo we can compile for either platform
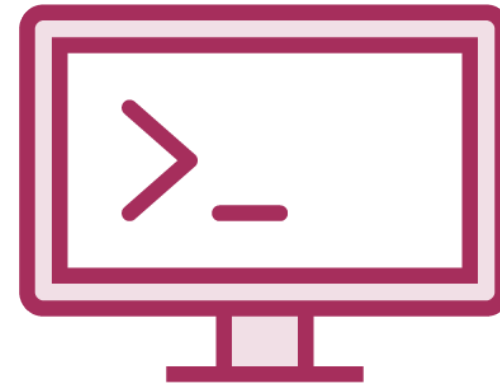

Expo

Convert project

Move our project into an Expo app

Expo development

Command line or GUI based tool

App Icons

https://developer.apple.com/ios/human-interface-guidelines/icons-and-images/app-icon/

iOS should be 1024 x 1024

Android at least 512 pixels

1024 x 1024 to meet requirements for both platforms
